

# HomeInformationCenter

## PDA MCE iPhone

HomeInformationCenter is the visualization of eibPort for PDA's, MCE (Media Center Edition) and the iPhone / iPod. HIC connects you to the complete functionality of the EIB/KNX. Now your PDA, Television or mobile is able to control light, heating, blinds and even the Music-/DVD library in full satisfying comfort.

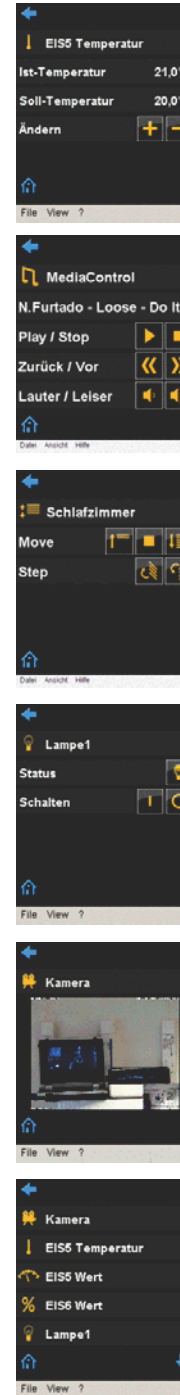

## Add On for eibPort

The HomeInformationCenter has been developed for the eibPort as Add On.

The project planning of HIC is carried out in the familiar simple way using the editor of eibPort. You can freely define and adapt the tree structure of the HIC to your individual ideas.

Keep informed and be mobile in your house. Cause of the camera integration you always are up to date with HomeInformationCenter.
